MEMORANDUM FOR: Executive Assistant to the Director

REFERENCE: OSI Memorandum of 15 December 1951

1. Reference memorandum dealt with a German proposal for the support of German research contained in a SO cable from Frankfurt of 27 November 1951 on which OSI was assigned action responsibility. Subsequently action responsibility was also assigned to OSI on State Department cable from Paris of 21 December 1951, a thermo-print copy of which is attached hereto.

2. OSI has received a memorandum from Dr. Karl H. Weber, Chief of the Scientific Division under the Senior Representative for Germany reviewing the proposals contained in the two documents. A copy of this memorandum is attached for your information.

3. It is apparent from Dr. Weber's memorandum that both proposals fall definitely into the category of political manipulation in relation to proposed security controls under the contractual relations. In view of this, we feel that no further action is required by the Agency.

H. MARSHALL CHAMBERLAIN
Assistant Director
Scientific Intelligence

Attachments:

- 1 Thermo copy of State Dept. cable from Paris, 21 Dec. 51
- 1 Memo from Dr. Weber, TFI-COT37, 22 January 1952
